

NOTICE

MEETING OF THE BOARD OF DIRECTORS OF THE LEAGUE ASSOCIATION OF RISK MANAGEMENT (LARM) Thursday, December 5, 2024 at 9:30 a.m. CT/8:30 a.m. MT

PLEASE TAKE NOTICE that on **Thursday, December 5, 2024, at 9:30 a.m. CT/8:30 a.m. MT**, the League Association of Risk Management (LARM), will hold a LARM Board of Directors meeting by Virtual Conferencing.

The meeting will be made available by Zoom via Computer, Smart Device or Telephone <https://larmpool-org.zoom.us/j/86024429082?pwd=X0vxE6lsa9ulbZENgE3sEhY-lnV9gae.1> or via phone at 833-548-0282. The Meeting ID: 860 2442 9082 and the passcode is 752064.

Suite 800 in the Sharp Building, 206 South 13th Street, in Lincoln, Nebraska, will be open for public attendance during the meeting.

An agenda of subjects known at this time is included with this notice, and the agenda shall be kept continually current and readily available for public inspection at the principal office of LARM during normal business hours at 206 South 13th Suite 800, in Lincoln, Nebraska. A notice of this meeting with the agenda and other materials is available at this location with the following links kept continually current on LARM's website – larmpool.org: an electronic copy of the agenda, all documents being considered at the meeting, and a link to the current version of the Open Meetings Act.

On November 26, 2024, a notice of this meeting with the agenda and other materials was sent to all LARM members and the LARM Board.

AGENDA

**MEETING OF THE BOARD OF DIRECTORS
OF THE LEAGUE ASSOCIATION OF RISK MANAGEMENT (LARM)
Thursday, December 5, 2024 at 9:30 a.m. CT/8:30 a.m. MT
By Virtual Conferencing**

In accordance with the Open Meetings Act, Chapter 84, Article 14 of the Reissue Revised Statutes of the State of Nebraska 1943, as amended, one copy of all reproducible written materials to be discussed is available to the public at the meeting and at the link below for examination and copying. The LARM Board may pass motions to go into closed session on agenda items pursuant to the requirements of the Open Meetings Act.

Suite 800 in the Sharp Building, 206 South 13th Street, in Lincoln, Nebraska, will be open for public attendance during the meeting. A notice of this meeting with the agenda and other materials will be available at this location with a copy of the Open Meetings Act posted.

You may join the meeting by Zoom via Computer, Smart Device or Telephone <https://larmpool-org.zoom.us/j/86024429082?pwd=X0vxE6lsa9ulbZENG3sEhYlnV9qae.1> or via phone at 833-548-0282. The Meeting ID: 860 2442 9082 and the passcode is 752064.

Officials of LARM members and members of the public may comment on agenda items or listen to the Board Meeting; however, if the Board votes to hold a closed session pursuant to the Open Meetings Act, officials of LARM members and members of the public may not comment or listen during that time.

1. Call meeting to order:

a. 9:30 a.m. CT/8:30 a.m. MT – Joey Spellerberg, Mayor of Fremont, and Chair of the LARM Board, will call the meeting to order.

b. Roll call.

c. Indicate that on November 26, 2024, a notice of this meeting with the agenda and other materials was sent to all LARM members and the LARM Board. Notice of this meeting with the agenda and other materials were available for public inspection at 206 South 13th Street, Suite 800, in Lincoln, Nebraska, and also posted with the following links kept continually current: an electronic copy of the agenda and all documents being considered at the meeting, with a link to the current version of the Open Meetings Act on LARM’s website- larmpool.org.

d. Inform the public about the location of the Open Meetings Act which is accessible to members of the public and at larmpool.org along with a copy of all reproducible written materials to be discussed at this meeting.

e. Pledge of Allegiance to the Flag of the United States of America.

f. Public comment on any agenda item(s): Pursuant to the Open Meetings Act, the LARM Board Chair reserves the right to limit comments on agenda items. In accordance with the Open Meetings Act, there is no time limit on comments made by members of the LARM Board of Directors.

2. Consider a motion to approve the appointment of Alec Baillie, Board Member, Loup Central Landfill, to the LARM Board of Directors due to the vacancy created by LARM Board member Josh Moenning, who chose not to run for an additional term as Mayor of the City of Norfolk.

· *Lynn Rex, Administrator, LARM*

3. Consider a motion to approve the minutes of the September 19, 2024, Meeting of the LARM Board of Directors.

See pages 1-6

4. Consider a motion to accept the quarterly update on LARM investments.

See pages 7-53

· *Michael Maloney, Senior Portfolio Manager, US Bank*

5. Consider a motion to accept the quarterly update on LARM financials.

See pages 54-60

· *Mark Weaver, Vice-President, Finance, Sedgwick*

6. Consider a motion for the LARM Board of Directors Vice-Chair to serve as the third person on the nominating committee.

- *Lynn Rex, Administrator, LARM*
- *Dave Bos, Executive Director, LARM*

7. Public disclosure of release and settlement agreement between David Mincer and Curie Mincer and the League Association of Risk Management and Sedgwick Claims Management Services Inc., and their affiliates, and each of their officers, directors, employees, successors and assigns, and Public Entity Risk Services of Iowa in consideration of payment of the total sum of \$50,000 to provide release and discharge to David Mincer and Curie Mincer, the League Association of Risk Management, Sedgwick Claims Management Services Inc., and their affiliates, and each of their officers, directors, employees, successors, and assigns and Public Entity Risk Services of Iowa for a liability claim, in compliance with Nebraska Revised Statute 84-713.

See pages 61-63

- *Dave Bos, Executive Director, LARM*

8. (If needed) Consider a motion to go into closed session to protect the public interest to receive an update regarding open LARM claims and litigation.

- *John Baum, Litigation Claims Manager, Sedgwick*

9. Discuss the date for the next meeting of the LARM Board of Directors.

- *Lynn Rex, Administrator, LARM*
- *Dave Bos, Executive Director, LARM*

10. Consider a motion to adjourn.

MINUTES
MEETING OF THE BOARD OF DIRECTORS
OF THE LEAGUE ASSOCIATION OF RISK MANAGEMENT

Investment Policy

Provided by U.S. Bank

LEAGUE ASSOCIATION OF RISK MANAGEMENT

INVESTMENT POLICY

- I. Purpose. The purpose of this document is to establish the investment policy for the League Association of Risk Management, hereafter called LARM, and to provide guidance to the LARM Board, the Investment Committee, the LARM Administrator, and, if utilized, the Investment Manager or Custodian Bank pertaining to investment objectives and guidelines.

- II. Goal. The overall investment goal of LARM is to obtain a high rate of return on its portfolio assets, with a minimal risk, abiding by the appropriate statutes governing the investment of these funds and complying with the responsibility to LARM members.

- III. Priority Listing of Objectives.
 - A. Safety of Principal. Avoidance of financial risk or compromise of the financial integrity of the portfolio.

 - B. Liquidity. Provide sufficient liquidity for the payment of claims and expenses.
This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary and resale markets (dynamic liquidity). A portion of the portfolio may be placed in money market mutual funds which offer same day liquidity for short term funds.

 - C. Earn a High Rate of Return. Earn the highest rate of return with minimal risk. However, return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

 - D. Diversification of Assets. Diversify assets by both the industry and the issuer in order to avoid undue exposure by any single industry or issuer.

 - E. All investments of LARM shall be in compliance with the Nebraska Insurer's Investment Act at all times.

- IV. Procedure.
 - A. LARM Board. The Board shall:
 1. Review and approve, at least quarterly, all purchases and disposals of investments.

2. Review, at least quarterly, whether all investments have been made in accordance with the Investment Policy.
3. Authorize the Investment Committee, under the general supervision of the LARM Board Chair, to manage the investments of LARM, either independently or through the utilization of the LARM Administrator or an Investment Manager or Custodian Bank.
4. Review the investment policy on an annual basis.

B. Investment Committee. The Investment Committee shall:

1. Receive and review summary reports on the investment portfolio, investment activities, and investment practices in order to determine whether the investment activity is consistent with the Investment Policy.
2. Provide such summary reports at least quarterly to the LARM Board for their review and approval.
3. Review and recommend revision of the Investment Policy to the LARM Board, as appropriate.
4. Review the Investment Manager or Custodian bank's performance and fees at least every 3 years.

C. LARM Administrator. The LARM Administrator shall:

1. Notify the Investment Committee of matters that bear upon the proper investment of the portfolio including pertinent financial, legal, or other information involving the investment of the portfolio and changes in investment objectives.
2. Meet regularly with the Investment Committee to report on progress of the portfolio.

D. Investment Manager or Custodian Bank. If utilized, the Investment Manager or Custodian Bank shall:

1. Meet regularly with the Investment Committee to report on progress of the portfolio.
2. Provide reports monthly to the Investment Committee.
3. Provide information concerning market trends and investment strategies.

V. Investment Guidelines.

A. Regulatory Limitations. The investment guidelines and restrictions as set forth by the Insurers Investment Act (Nebraska Revised Statutes Section 44-5101 et seq.) shall be adhered to at all times by the Board, the Investment Committee, the LARM Administrator, and any Investment Manager or Custodian Bank utilized by the Investment Committee in exercise of their discretion.

B. Prudence. The standard of prudence to be used for managing LARM's investments is the "prudent investor" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of

their own affairs, not for speculation, but for investment considering the probable safety of their capital as well as the probable income to be derived.”

C. General Strategies.

1. The Investment Committee, or an Investment Manager or Custodial Bank, if utilized, shall determine the appropriate allocation of funds among cash, cash equivalents, and investment grade fixed income securities.
2. Capital gains and losses may be realized when, in the judgment of the Investment Committee or its investment manager or custodian bank, if utilized, consistent with the goals, objectives, and guidelines of this policy, such action is in the best interest of the portfolio and will lead to a greater long-term total rate of return.
3. Securities purchased by the Investment Committee, the LARM Administrator, or an Investment Manager or Custodian Bank, if utilized, shall be limited in general maturity parameters as follows:

The maximum maturity of any security at date of purchase shall not exceed 60 months. The purchase of a security with a maturity longer than 60 months shall be approved by the LARM Board at the next quarterly meeting. Because of inherent difficulties in accurately forecasting cash flow requirements, a portion of the portfolio should be continuously invested in readily available funds such as money market funds to ensure appropriate liquidity is maintained to meet ongoing obligations.

Securities shall not be sold prior to maturity with the following exceptions:

A security with declining credit may be sold early to minimize loss of principal.

Liquidity needs of the portfolio require that the security be sold.

A security swap that would adjust the portfolio (quality, yield, or duration) in a manner that would allow it to better fulfill the investment objectives.

Security purchases and sales shall be made, so that at the time of purchase or sale they do not cause, or exacerbate, non-compliance with the LARM portfolio maturity limitations.

4. Investments made by the Investment Committee, the LARM Administrator, or an Investment Manager or Custodian Bank, if utilized, shall be limited according to the following:

<u>Asset Class</u>	<u>Limitation*</u>
Direct obligations of the United States or obligations for which the full faith and credit of the United States is pledged for the payment of all principal and interest	No Limit
Direct obligations of any agency or instrumentality of the United States or obligations for which the full faith and credit of any agency or instrumentality of the United States is pledged for the payment of all principal and interest	25% per issuer
Other investment grade fixed income securities	5% per issuer
Mutual funds investing in the above classes	<u>5% per issuer, not to exceed 25% in total if the fund is only allowed to invest in U.S. government obligations or U.S. agency or instrumentality obligations; and</u> <u>5% per issuer, not to exceed 10% if invested in other classes.</u>

**Limitations apply to the percentage of admitted assets as shown by the most recent financial statement filed with the Nebraska Department of Insurance.*

- VI. Standard of Performance. Consideration shall be given to the extent to which the investment results are consistent with the goals and objectives as set forth in this policy.

Revised 3-23-2007; 12-16-2009; 3-1-2011; 2-26-2018

Performance reports included may show performance results gross of fees and expenses. If fees and expenses were included, the performance would be lower. If you have any questions, please speak with your relationship manager for additional information.

Based on our strategic approach to creating diversified portfolios, guidelines are in place concerning the construction of portfolios and how investments should be allocated to specific asset classes based on client goals, objectives and tolerance for risk. Not all recommended asset classes will be suitable for every portfolio. **Diversification and asset allocation do not guarantee returns or protect against losses.**

Important disclosures (page 2 of 4)

Equity securities are subject to stock market fluctuations that occur in response to economic and business developments. **Stocks of small-capitalization companies** involve substantial risk. These stocks historically have experienced greater price volatility than stocks of larger companies and may be expected to do so in the future. **Stocks of mid-capitalization companies** can be expected to be slightly less volatile than those of small-capitalization companies, but still involve substantial risk and may be subject to more abrupt or erratic movements than large-capitalization companies. The value of **large-capitalization stocks** will rise and fall in response to the activities of the company that issued them, general market conditions and/or economic conditions. **Growth investments** focus on stocks of companies whose earnings/profitability are accelerating in the short term or have grown consistently over the long term. Such investments may provide minimal dividends, which could otherwise cushion stock prices in a market decline. Stock value may rise and fall significantly based, in part, on investors' perceptions of the company, rather than on fundamental analysis of the stocks. Investors should carefully consider the additional risks involved in growth investments. **Value investments** focus on stocks of income-producing companies whose price is low relative to one or more valuation factors, such as earnings or book value. Such investments are subject to risks that their intrinsic values may never be realized by the market, or such stocks may turn out not to have been undervalued. Investors should carefully consider the additional risks involved in value investments.

International investing involves special risks, including foreign taxation, currency risks, risks associated with possible differences in financial standards and other risks associated with future political and economic developments. Investing in **emerging markets** may involve greater risks than investing in more developed countries. In addition, concentration of investments in a single region may result in greater volatility.

Investments in **real estate securities** can be subject to fluctuations in the value of the underlying properties, the effect of economic conditions on real estate values, changes in interest rates and risks related to renting properties (such as rental defaults). There are special risks associated with an investment in **commodities**, including market price fluctuations, regulatory changes, interest rate changes, credit risk, economic changes and the impact of adverse political or financial factors.

Investments in **fixed income securities** are subject to various risks, including changes in interest rates, credit quality, market valuations, liquidity, prepayments, early redemption, corporate events, tax ramifications and other factors. Investment in fixed income securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term securities. Investments in lower-rated and non-rated securities present a greater risk of loss to principal and interest than higher-rated securities. Investments in **high yield bonds** offer the potential for high current income and attractive total return, but involve certain risks. Changes in economic conditions or other circumstances may adversely affect a bond issuer's ability to make principal and interest payments.

Important disclosures (page 3 of 4)

The **municipal bond** market is volatile and can be significantly affected by adverse tax, legislative or political changes and the financial condition of the issues of municipal securities. Interest rate increases can cause the price of a bond to decrease. Income on municipal bonds is free from federal taxes, but may be subject to the federal alternative minimum tax (AMT), state and local taxes. **Treasury Inflation-Protected Securities (TIPS)** offer a lower return compared to other similar investments and the principal value may increase or decrease with the rate of inflation. Gains in principal are taxable in that year, even though not paid out until maturity.

Non-financial **specialty assets**, such as real estate, farm, ranch and timber properties, oil, gas and mineral interests or closely-held business interests are complex and involve unique risks specific to each asset type, including the total loss of value. Special risk considerations may include natural events or disasters, complex tax considerations and lack of liquidity. Specialty assets may not be suitable for all investors.

Alternative investments very often use speculative investment and trading strategies. There is no guarantee that the investment program will be successful. Alternative investments are designed only for investors who are able to tolerate the full loss of an investment. These products are not suitable for every investor even if the investor does meet the financial requirements. It is important to consult with your investment professional to determine how these investments might fit your asset allocation, risk profile and tax situation. **Hedge funds** are speculative and involve a high degree of risk. An investment in a hedge fund involves a substantially more complicated set of risk factors than traditional investments in stocks or bonds, including the risks of using derivatives, leverage and short sales, which can magnify potential losses or gains. Restrictions exist on the ability to redeem or transfer interests in a fund. **Exchange-traded funds (ETFs)** are baskets of securities that are traded on an exchange like individual stocks at negotiated prices and are not individually redeemable. ETFs are designed to generally track a market index and shares may trade at a premium or a discount to the net asset value of the underlying securities. **Private equity** investments provide investors and funds the potential to invest directly into private companies or participate in buyouts of public companies that result in a delisting of the public equity. Investors considering an investment in private equity must be fully aware that these investments are illiquid by nature, typically represent a long-term binding commitment and are not readily marketable. The valuation procedures for these holdings are often subjective in nature. **Private debt** investments may be either direct or indirect and are subject to significant risks, including the possibility of default, limited liquidity and the infrequent availability of independent credit ratings for private companies. **Structured products** are subject to market risk and/or principal loss if sold prior to maturity or if the issuer defaults on the security. Investors should request and review copies of Structured Products Pricing Supplements and Prospectuses prior to approving or directing an investment in these securities.

Important disclosures (page 4 of 4)

Mutual fund investing involves risk and principal loss is possible. Investing in certain funds involves special risks, such as those related to investments in small- and mid-capitalization stocks, foreign, debt and high-yield securities and funds that focus their investments in a particular industry. Please refer to the fund prospectus for additional details pertaining to these risks. An investment in **money market funds** is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although these funds seek to preserve the value of an investment at \$1.00 per share, it is possible to lose money by investing in these funds.

Holdings of First American Funds: U.S. Bancorp Asset Management, Inc. is a registered investment advisor and subsidiary of U.S. Bank National Association. U.S. Bank National Association is a separate entity and wholly owned subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, performance or services of U.S. Bancorp Asset Management. U.S. Bancorp Asset Management, Inc. serves as an investment advisor to First American Funds. **Holdings of Nuveen mutual funds:** Firststar Capital Corporation (Firststar Capital), an affiliate of U.S. Bancorp, holds a less-than-10 percent ownership interest in Windy City Investments Holdings, LLC which was formerly the parent of Windy City Investment Inc. and the indirect parent of Nuveen Fund Advisors, LLC which is the investment advisor to the Nuveen Mutual Funds. On October 1, 2014, Windy City Investments, Inc. was sold to Teachers Insurance and Annuity Association of America. As a result of the sale, U.S. Bancorp no longer has an indirect ownership interest in Nuveen Fund Advisors, LLC. Depending on the outcome of certain factors, Firststar Capital might in the future receive an earn-out payment in respect of its interest in Windy City Investment Holdings, LLC, under the terms of the sale. **Non-proprietary mutual funds:** U.S. Bank may enter into agreements with other non-proprietary mutual funds or their service providers whereby U.S. Bank provides shareholder services and/or sub-transfer agency, custodial and other administrative support services and receives compensation for these services. Compensation received by U.S. Bank directly or indirectly from mutual funds does not increase fund fees and expenses beyond what is disclosed in the fund prospectuses. For more information, review the fund prospectus.

Definitions of report and statement terms (page 1 of 5)

Accredited Investor: Private placement securities generally require that investors be accredited due to the additional risks and speculative nature of the securities. For natural persons, the criteria is met by a net worth of more than \$1 million (excluding primary residence) or an income of more than \$200,000 individually (\$300,000 jointly) for the two most recent years and a reasonable expectation for the same in the current year. For other entities, such as corporations, partnerships, trusts and employee benefit plans, the criteria is met with at least \$5 million in assets. See full definition in Rule 501 of Regulation D under the Securities Act of 1933.

Alpha: A measure of risk-adjusted performance. A statistic measuring that portion of a stock, fund or composite's total return attributable to specific or non-market risk. Alpha measures non-market return and indicates how much value has been added or lost. A positive Alpha indicates the fund or composite has performed better than its Beta would predict (i.e., the manager has added value above the benchmark). A negative Alpha indicates a fund or composite has underperformed given the composite's Beta.

Alternative Investments: As used by U.S. Bank, an investment considered to be outside of the traditional asset classes of long-only stocks, bonds and cash. Examples of alternative investments include hedge funds, private equity, options and financial derivatives.

Annualized Excess Return: Shows the difference between the annualized linked returns of a portfolio and the model benchmark. Performance reports provided annualize only periods greater than one year.

Annualized or Annual Rate of Return: Represents the average annual change in the value of an investment over the periods indicated.

Batting Average: Shows how consistently the portfolio return met or beat the market.

Beta: A measure of your portfolio's risk relative to a benchmark. A portfolio with a beta of 1.5, for example, would be expected to return roughly 1.5 times the benchmark's return. A high Beta indicates a riskier portfolio.

Bond Credit Rating: A grade given to bonds by a private independent rating service that indicates their credit quality. Ratings are the opinion of Standard & Poor's or other agencies as noted and not the opinion of U.S. Bank.

Consumer Price Index (CPI): A measure of the average change in prices over time in a market basket of goods and services and is one of the most frequently used statistics for identifying periods of inflation and deflation.

Convexity to Stated Maturity: A measure of the curvature in the relationship between bond prices and bond yields that demonstrates how the duration of a bond changes as the interest rate changes. Convexity is used as a risk-management tool and helps to measure and manage the amount of market risk to which a portfolio of bonds is exposed. This version of convexity measures the rate change in duration of a bond as the yield to (stated) maturity changes.

Definitions of report and statement terms (page 2 of 5)

Cost basis/book value: The original value of an asset at the time it was acquired. This is normally the purchase price or appraised value at the time of acquisition. This data is for information purposes only.

Cumulative Excess Return: Shows the difference between the annualized linked returns of a portfolio and the model benchmark. Performance reports provided use unannualized returns in periods up to one year, but annualized returns for periods exceeding one year.

Downside Capture: The downside capture ratio reflects how a portfolio compares to a benchmark during periods when the benchmark is down. A downside capture ratio of 0.80 (or 80 percent) means the portfolio has historically declined only 80 percent as much as the benchmark during down markets.

Downside Deviation: The deviation of returns that fall below a minimum acceptable return (MAR). Although the numerator includes only returns below the MAR, the denominator includes all returns in the performance period. This risk statistic is similar to the downside standard deviation except the sum is restricted to returns less than the MAR instead of the mean.

Downside Standard Deviation: The deviation of returns that fall below the mean return. Although the numerator includes only returns below the mean, the denominator includes all returns in the performance period. This risk statistic is similar to the downside deviation except the sum is restricted to returns less than the mean instead of the minimum acceptable return (MAR).

Effective Maturity: The date of a bond's most likely redemption, given current market conditions, taking into consideration the optional and mandatory calls, the optional, mandatory and recurring puts, and the stated maturity.

Estimated annual income: The amount of income a particular asset is anticipated to earn over the period indicated. The shares multiplied by the annual income rate.

Gain/loss calculation: If an asset was sold, the difference between the proceeds received from the sale compared to the cost of acquiring the asset. If the value of the proceeds is the higher of the two numbers, then a gain was realized. If the value of the proceeds is the lower of the two numbers, a loss was incurred. This data is for information purposes only.

Information Ratio: The information ratio compares the average excess return of the portfolio over its associated benchmark divided by the tracking error.

M-Squared: The hypothetical return of the portfolio after its risk has been adjusted to match a benchmark.

Definitions of report and statement terms (page 3 of 5)

Market Value: Publicly traded assets are valued using market quotations or valuation methods from financial industry services believed by us to be reliable. Assets, that are not publicly traded, may be reflected at values from other external sources or special valuations prepared by us. Assets for which a current value is not available may be reflected as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could have been bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

Market Value Over Time: Many factors can impact the portfolio value over time, such as contributions to the account, distributions from the account, the investment of dividends and interest, the deduction of fees and expenses, and market performance.

Modified Duration to Effective Maturity: A formula that expresses the measurable change in the value of a security in response to a change in interest rates. This version of Modified Duration takes into consideration a “horizon date/price” that is, given current conditions, the most likely redemption date/price using the set of calls/puts, as well as stated maturity.

Modified Duration to Stated Maturity: A formula that expresses the measurable change in the value of a security in response to a change in interest rates. This version of Modified Duration uses stated maturity as the “horizon date/price” and ignores any potential call/put/pre-refunding, even if they are mandatory.

Price/Earnings Ratio (P/E): The P/E ratio of a company is calculated by dividing the price of the company’s stock by its trailing 12-month earnings per share. A high P/E usually indicates that the market is paying a premium for current earnings because it believes in the firm’s ability to grow its earnings. A low P/E indicates the market has less confidence that the company’s earnings will increase. Within a portfolio, P/E is the weighted average of the price/earnings ratios of the stocks in the portfolio.

Qualified Purchaser: Some private placement securities require that investors be Qualified Purchasers in addition to being Accredited Investors. For natural persons, the criteria is generally met when the client (individually or jointly) owns at least \$5 million in investments. For other entities, such as corporations, partnerships, trusts and employee benefit plans, the criteria is met with at least \$25 million in investments though there are other eligibility tests that may apply. See full definition in Section 2(a)(51) of the Investment Company Act of 1940.

R-Squared: Measures the portion of the risk in your portfolio that can be attributed to the risk in the benchmark.

Realized and Unrealized Gains/Losses: Are calculated for individual tax lots based on the records we have available. Some data may be incomplete or differ from what you are required to report on your tax return. Some data used in these calculations may have been obtained from outside sources and cannot be verified by U.S. Bank. The data is intended for informational purposes only and should not be used for tax reporting purposes. Please consult with your tax or legal advisor for questions concerning your personal tax or financial situation.

Definitions of report and statement terms (page 4 of 5)

Residual Risk: The amount of risk specific to the assets in a portfolio distinct from the market, represented by a benchmark.

Return: An indication of the past performance of your portfolio.

Sharpe Ratio: Measures of risk-adjusted return that calculates the return per unit of risk, where risk is the Standard Deviation of your portfolio. A high Sharpe ratio indicates that the portfolio is benefiting from taking risk.

Sortino Ratio: Intended to differentiate between good and bad volatility. Similar to the Sharpe ratio, except it uses downside deviation for the denominator instead of standard deviation, the use of which doesn't discriminate between up and down volatility.

Spread: The difference between the yields of two bonds with differing credit ratings (most often, a corporate bond with a certain amount of risk is compared to a standard traditionally lower risk Treasury bond). The bond spread will show the additional yield that could be earned from a bond which has a higher risk.

Standard Deviation: A measure of the volatility and risk of your portfolio. A low standard deviation indicates a portfolio with less volatile returns and therefore less inherent risk.

Time-weighted Return: The method used to calculate performance. Time-weighted return calculates period by period returns that negates the effect of external cash flows. Returns for periods of greater than one year are reported as an annualized (annual) rate of return. Returns of less than one year are reported on a cumulative return basis. Cumulative return is the aggregate amount an investment has gained or lost over time, independent of the period involved.

Tracking Error: A divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark. This is often in the context of a hedge or mutual fund that did not work as effectively as intended, creating an unexpected profit or loss instead.

Traditional Investments: As used by U.S. Bank, an investment made in equity, fixed income or cash securities, mutual funds or exchange-traded funds (ETFs) where the investor buys at a price with the goal that the investment will go up in value.

Top 10 Holdings: The 10 assets with the highest market values in the account.

Total Portfolio Gross of Fees: Represents all assets included in the calculation of the portfolio, before the deduction of trust and asset management fees, and is inclusive of all applicable third-party security fees and expenses. Details of those fees and expenses are provided in the security's prospectus or offering documents.

Definitions of report and statement terms (page 5 of 5)

Total Return: The rate of return that includes the realized and unrealized gains and losses plus income for the measurement period.

Treynor Ratio: Measures the performance of a sector relative to risk by dividing the return of the sector in excess of the risk-free return by the sector's Beta. The higher the Treynor ratio, the better the return relative to risk.

Turnover Percent: Indicates how frequently asset are bought and sold within a portfolio.

Turnover Ratio: The percentage of a mutual fund's or other investment vehicle's holdings that have been "turned over" or replaced with other holdings in a given year.

Unrealized gain (loss) — The difference between the current market value (at the end of the statement period) and the cost to acquire the asset. If the current market value is higher than the cost, a gain is reflected. If the current market value is lower than the cost paid, a loss is reflected. This data is for information purposes only.

Upside Capture: The upside capture ratio reflects how a portfolio compares to the selected model benchmark during periods when the benchmark is up. An upside capture ratio of 1.15 (or 115 percent) means the portfolio has historically beat the benchmark by 15 percent during up markets.

Yield: The annual rate of return on an investment, expressed as a percentage. For bonds, it is the coupon rate divided by the market price. For stocks, it is the annual dividend divided by the market price.

Frequently used indexes (page 1 of 5)

Bloomberg Barclays 1-3 year U.S. Treasury Index: Measures the performance of the U.S. government bond market and includes public obligations of the U.S. Treasury with a maturity between one year and up to (but not including) three years.

Bloomberg Barclays 1-5 year U.S. Treasury Index: Includes all publicly issued, U.S. Treasury securities that have a remaining maturity of greater than or equal to one year and less than five years, are rated investment grade and have \$250 million or more of outstanding face value.

The Bloomberg Barclays 1-5 year Municipal Index: Measures the performance of municipal bonds with time to maturity of more than one year and less than five years.

Bloomberg Barclays 7-year Municipal Index: Includes municipal bonds with a minimum credit rating of Baa that have been issued as part of a transaction of at least \$50 million, have a maturity value of at least \$5 million and a maturity range of four to six years.

Bloomberg Barclays Global Aggregate Index ex-U.S. Index: Measure of global investment grade debt from 24 local currency markets. This multi-currency benchmark includes Treasury, government-related, corporate and securitized fixed-rate bonds from both developed and emerging markets issuers.

Bloomberg Barclays Global Treasury ex-U.S. Index: Includes government bonds issued by investment-grade countries outside the United States, in local currencies, that have a remaining maturity of one year or more and are rated investment grade.

Bloomberg Barclays High Yield Municipal Bond Index: An unmanaged index made up of bonds that are non-investment grade, unrated or below Ba1 bonds.

Bloomberg Barclays Intermediate Aggregate Index: Consists of one- to 10-year governments, one- to 10-year corporate bonds, all mortgages and all asset-backed securities within the Aggregate Index.

Bloomberg Barclays Mortgage-Backed Securities Index: Covers agency mortgage-backed pass-through securities (both fixed-rate and hybrid adjustable-rate mortgages) issued by Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Bloomberg Barclays U.S. Aggregate Bond Index: Measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities, asset-backed securities and commercial mortgage-backed securities.

Bloomberg Barclays U.S. Corporate Bond Index: Measures the investment grade, fixed-rate, taxable corporate bond market and includes U.S. dollar-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

Frequently used indexes (page 2 of 5)

Bloomberg Barclays U.S. Corporate High Yield Bond Index: Measures the U.S. dollar denominated, high yield, fixed-rate corporate bond market.

Bloomberg Barclays U.S. Municipal Bond Index: Measures the investment grade, U.S. dollar-denominated, fixed tax-exempt bond market. The index includes state and local general obligation, revenue, insured and pre-refunded bonds.

Bloomberg Barclays U.S. Treasury Index: Measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury.

Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index: An unmanaged index includes all publicly issued, U.S. TIPS that have at least one year remaining to maturity, are rated investment grade, and have \$250 million or more of outstanding face value.

Cambridge U.S. Private Equity Index: This index is based on returns data compiled for U.S. private equity funds (including buyout, growth equity and mezzanine funds) that represent the majority of institutional capital raised by private equity partnerships formed since 1986. Returns may be delayed by up to six months. Quarterly performance is prorated based on the cube root for the months of the quarter.

Citigroup 3-Month Treasury Bills: An unmanaged index and represents monthly return equivalents of yield averages of the last three-month Treasury Bill issues.

Citigroup 6-Month Treasury Bills: An unmanaged index and represents monthly return equivalents of yield averages of the last six-month Treasury Bill issues.

Credit Suisse Leverage Loan Index: Represents tradable, senior-secured, U.S. dollar-denominated non-investment grade loans.

Dow Jones Industrial Average (DJIA): The price-weighted average of 30 significant U.S. stocks traded on the New York Stock Exchange and NASDAQ. The DJIA is the oldest and single most watched index in the world.

Dow Jones Select REIT Index: Measures the performance of publicly traded REITs and REIT-like securities in the U.S. and is a proxy for direct real estate investment, in part by excluding companies whose performance may be driven by factors other than the value of real estate.

HFRI Indices: The Hedge Fund Research, Inc. (HFRI) indexes are a series of benchmarks designed to reflect hedge fund industry performance by constructing composites of constituent funds, as reported by the hedge fund managers listed within the HFR Database.

Frequently used indexes (page 3 of 5)

HFRI Equity Hedge Total Index: Uses the HFR (Hedge Fund Research) database and consists only of equity hedge funds with a minimum of \$50 million assets under management or a 12-month track record and that reported assets in U.S. dollars.

HFRI Relative Value Fixed Income Corporate Index: Uses the HFR (Hedge Fund Research) database and consists of only relative value fixed income corporate funds with a minimum of \$50 million assets under management or a 12-month track record and that reported assets in U.S. dollars.

ICE BofAML 1-3 Year Corporate Index: Tracks U.S. dollar-denominated investment grade public debt issued in the U.S. bond market with maturities of one to three years.

ICE BofAML 1-5 Year Corporate and Government Index: Tracks the performance of short-term U.S. investment grade government and corporate securities with maturities between one and five years.

ICE BofAML U.S. 7-10 Year Index: Tracks the performance of U.S. dollar denominated investment grade rated corporate debt publicly issued in the U.S. domestic market and includes all securities with a remaining term to maturity of greater than or equal to seven years and less than 10 years.

ICE BofAML Global Broad Market Index: Tracks the performance of investment grade public debt issued in the major domestic and Eurobond markets, including global bonds.

ICE BofAML U.S. High Yield Master II Index: Commonly used benchmark index for high yield corporate bonds and measures the broad high yield market.

J.P. Morgan Emerging Markets Bond Index Global (EMBI Global): Tracks total returns for traded external debt instruments in the emerging markets.

London Interbank Offered Rate (LIBOR) 3-months: The interest rate offered by a specific group of London banks for U.S. dollar deposits with a three-month maturity.

London Interbank Offered Rate (LIBOR) 9-months: The interest rate offered by a specific group of London banks for U.S. dollar deposits with a nine-month maturity.

MSCI All Country World Index (ACWI): Designed to measure the equity market performance of developed and emerging markets.

Frequently used indexes (page 4 of 5)

Russell 2000 Value Index: Measures companies in the Russell 2000 Index having lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Index includes the 2,000 firms from the Russell 3000 Index with the smallest market capitalizations.

Russell 3000 Index: Measures the performance of the 3,000 largest U.S. securities based on total market capitalization.

Russell Midcap Index: Measures the 800 smallest companies in the Russell 3000 Index.

Russell Midcap Growth Index: Measures companies in the Russell Midcap Index having higher price-to-book ratios and higher forecasted growth values.

Russell Midcap Value Index: Measures companies in the Russell Midcap Index having lower price-to-book ratios and lower forecasted growth values.

MSCI All County World ex-U.S. Index (ACWI, excluding United States): Tracks the performance of stocks representing developed and emerging markets around the world that collectively comprise most foreign stock markets. U.S. stocks are excluded from the index.

MSCI EAFE Index: Includes approximately 1,000 companies representing the stock markets of 21 countries in Europe, Australasia and the Far East.

MSCI Emerging Markets (EM) Index: Designed to measure equity market performance in global emerging markets.

MSCI World Index: Tracks equity market performance of developed markets through individual country indices.

NAREIT Index: Includes REITs (Real Estate Investment Trusts) listed on the New York Stock Exchange, NASDAQ and American Stock Exchange.

NASDAQ Composite Index: A market capitalization-weighted average of roughly 5,000 stocks that are electronically traded in the NASDAQ market.

NCREIF Property Index (NPI): Measures the investment performance of a very large pool of individual commercial real estate properties acquired in the private market for investment purposes only.

Russell 1000 Index: Measures the performance of the 1,000 largest companies in the Russell 3000 Index and is representative of the U.S. large capitalization securities market.

Frequently used indexes (page 5 of 5)

Russell 1000 Growth Index: Measures companies in the Russell 1000 Index with higher price-to-book ratios and higher forecasted growth values. It includes the largest 1,000 firms in the Russell 3000 Index.

Russell 1000 Value Index: Measures companies in the Russell 1000 Index with lower price-to-book ratios and lower forecasted growth values. It includes the largest 1,000 firms in the Russell 3000 Index.

Russell 2000 Index: Measures the performance of the 2,000 smallest companies in the Russell 3000 Index and is representative of the U.S. small capitalization securities market.

Russell 2000 Growth Index: Measures companies in the Russell 2000 Index having higher price-to-book ratios and higher forecasted growth values, and is representative of U.S. securities exhibiting growth characteristics. The Russell 2000 Index includes the 2,000 firms from the Russell 3000 Index with the smallest market capitalizations.

S&P 500 Index: Consists of 500 widely traded stocks that are considered to represent the performance of the U.S. stock market.

S&P Global ex-U.S. Property Index: Measures the investable universe of publicly traded property companies domiciled in developed and emerging markets excluding the United States. The companies included are engaged in real estate related activities such as property ownership, management, development, rental and investment.

S&P GSCI: A composite index of commodity sector returns, representing an unleveraged, long-only investment in commodity futures that is broadly diversified across the spectrum of commodities.

S&P/Case-Shiller Home Price Indexes: A group of indexes that track changes in home prices throughout the United States. Case-Shiller produces indexes representing certain metropolitan statistical areas (MSA) as well as a national index.

Swiss Re Global Cat Bond Total Return Index: Tracks the aggregate performance of all U.S. dollar-denominated euros and Japanese yen-denominated catastrophe bonds, capturing all ratings, perils and triggers.

U.S. Dollar Index: Indicates the general international value of the U.S. dollar by averaging the exchange rates between the U.S. dollar and six major world currencies.

Wilshire 5000 Index: Composed of more than 6,700 publicly-traded U.S. companies and is designed to track the overall performance of the American stock markets.

GENERAL RELEASE

The undersigned, David Mincer and Curie Mincer, husband and wife ("Claimant"), state:

1. The Claimant, individually and on behalf of his and her successors and assigns, in consideration of the payment to him and her in the sum of FIFTY THOUSAND Dollars (\$50,000.00), does fully release and forever discharge the League Association of Risk Management (LARM), Sedgwick Claims Management Services, Inc., and its affiliates, and each of their officers, directors, employees, successors and assigns, Public Entity Risk Services of Iowa (PERSI) (the "Released Parties") from any and all liability for all claims the Claimant may have under the terms of the insurance policy, contract number 204, that was issued to the City of Atkinson, Nebraska arising from the incident that occurred on or about May 24, 2023, involving a motor vehicle/pedestrian collision that occurred in Atkinson, Holt County, Nebraska, when a vehicle operated by an underinsured motorist collided with David Mincer while he was a pedestrian. This Release of liability includes all common law, statutory, and other causes of action, including damage claims of any sort, attorney's fees, and costs which Claimant may have or claim to have as of the date of this Release, except for it does not include release of any claims Claimant may have for underinsured motorist coverage against State Farm Insurance, and does not include release of any claims Claimant may have for workers' compensation benefits under the Nebraska Workers' Compensation Act for injuries he sustained from the incident that occurred on or about May 24, 2023. Nothing in this Release shall be construed to prohibit, limit or restrict Claimant's right to file a petition for workers' compensation benefits, seek enforcement of an order or award for workers' compensation benefits or seek any other available relief under the Nebraska Workers' Compensation Act from the Nebraska Workers' Compensation Court or any other Nebraska state court with competent jurisdiction.

2. Claimant is solely responsible for any and all tax liability due and owing by him related to this payment and will defend, indemnify, and hold harmless the Released Parties from any such tax liability due and owing by Claimant.

3. Claimant recognizes that the Released Parties will comply with the Nebraska Open Records Act.

4. Claimant agrees any action or proceeding that has been initiated or filed related to the incident will be immediately dismissed with prejudice.

5. This Release is executed as a compromise settlement of a disputed claim for uninsured and/or underinsured motorist benefits under the terms of insurance policy, contract number 204. The Released Parties deny that they have done anything improper or illegal concerning the incident described in this Release, and this Release does not constitute an admission of liability on the part of any person or entity. No other promises have been made by the Released Parties, or by any person or entity acting on their behalf. This Release covers all injuries and damages whether presently known or not.

6. Claimant represents that he does not know of any person or entity that has paid any amount on his behalf that would entitle anyone to recover as a lienholder or subrogee of Claimant against the Released Parties. If such lienholder, subrogee, or any person/entity with a third party interest exists, Claimant agrees to negotiate and satisfy those third-party interests out of the settlement proceeds and further agrees to defend, indemnify, and hold harmless the Released Parties for any claims or interests that are asserted. Such indemnification shall include, without limitation, any and all attorney fees, court costs, and any and all other costs and expenses. Claimant further represents that he has not assigned his claim to any other person.

7. Claimant is executing this Release solely upon his own knowledge, belief, and judgment and not upon any representation made by the Released Parties. Claimant acknowledges that he has had the opportunity to consult with an attorney of his choice.

8. Claimant represents that he is not currently receiving Medicare benefits and that Medicare has not made any conditional payments on their behalf related to their claims in this matter. Claimant has not and will not apply for Social Security Disability benefits related to this incident. Claimant does not anticipate any future Medicare-eligible expenses related to any injuries for which he is making a claim. Because no future Medicare-eligible expenses are anticipated, no part of the settlement is being set aside for Medicare. Claimant agrees to defend, indemnify, and hold harmless the Released Parties from any interest asserted by Medicare. Such indemnification shall include, without limitation, any and all attorney fees, court costs, and any and all other costs and expenses.

9. This Release constitutes the entire agreement between Claimant and the Released Parties. It supersedes all prior Releases and understandings, whether oral or written, relating to Claimant's alleged injuries and damages related to the incident described in this Release.

10. It is the intent of Claimant and the Released Parties to end any dispute between them pertaining to the matters described in this Release. This Release should be broadly construed to achieve this intent. The terms, provisions, representations, and remedies contained in this Release shall be enforceable to the fullest extent permitted by

law. If any term of this Release is found to be invalid or unenforceable, then such term shall be construed in a manner permitting its enforcement to the fullest extent allowed by the law. In any case, the remaining provisions of this Release other than those which have been held invalid, illegal, or unenforceable, shall not be affected or impaired and shall remain in full force and effect. This Release will not be construed either in favor of one party or against one party, but rather pursuant to the fair and reasonable interpretation of the language used.

CAUTION: THIS IS A RELEASE. READ BEFORE SIGNING.
